PROFESSIONAL SUMMARY

Software Engineer (2026 Graduate) with strong fundamentals in Data Structures, Algorithms, and Backend Development.
Experienced in building scalable REST APIs and ML-powered systems using Java (Spring Boot) and Python (Flask).
Skilled in designing efficient, production-ready systems and solving real-world problems through scalable architectures.

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL
Backend Development: Spring Boot, Flask, REST APIs, Microservices Architecture
Databases: MySQL, MongoDB, H2
Distributed Systems: Apache Kafka
Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks
Testing: JUnit, MockMvc, Unit Testing
Tools: Git, GitHub, Maven, Postman
Machine Learning: Scikit-learn, Pandas, NumPy

EDUCATION

Bachelor of Science in Information Technology
Mumbai University — *Expected May 2026*
Relevant Coursework: Data Structures, DBMS, Operating Systems, Computer Networks

PROJECTS

Phishing Detection System (Machine Learning + Backend Integration Live Demo |Github Link

Tech: Python, Flask, Scikit-learn, MongoDB, REST APIs

- Built an end-to-end phishing detection system achieving **78.7% model accuracy**
- Developed REST APIs using Flask for **real-time URL classification**
- Designed complete ML pipeline including preprocessing, validation, and evaluation
- Integrated MongoDB for **logging, monitoring, and scalable data storage**

Cogito – AI Decision Intelligence System Live Demo | Github Link

Tech: Flutter, Dart, REST APIs

- Developed an AI-based decision system generating **structured recommendations with confidence scores**
- Implemented **rule-based + ML-assisted scoring logic** for decision analysis
- Designed modular architecture with reusable UI components
- Integrated REST APIs for real-time data processing

SOFTWARE ENGINEERING EXPERIENCE (SIMULATION)

JPMorgan Chase – Software Engineering Job Simulation (Forage) **November 2025**

- Integrated Apache Kafka into Spring Boot microservices for **high-throughput processing**
- Built REST APIs and implemented **transaction validation & persistence logic**
- Used Spring Data JPA with H2 database for backend operations
- Tested system reliability using Maven-based testing

Hewlett Packard Enterprise – Software Engineering Job Simulation (Forage) **November 2025**

- Designed RESTful web service architecture for employee management system
- Built Spring Boot backend handling HTTP requests and JSON payloads
- Developed and executed unit tests for performance and reliability

ACHIEVEMENTS

- **Runner-Up – QuDeCo Technical Competition** (Quiz, Debugging, Web Development)
- **LeetCode:** Solved 110+ problems (DSA, Trees, Graphs, Dynamic Programming)

LEADERSHIP & VOLUNTEERING

Sea Cadet Corps – Ordinary Cadet (Mumbai, 4 Years)

- Completed structured naval training with discipline and teamwork focus
- Volunteered at Indian Naval Hospital Services (INHS)
